Git & Github

PROFILE

I'm a React Js developer having skills to create web applications using React Js, Express js, MongoDB, HTML, CSS, Javascript, Bootstrap, React, Redux. I have experience in developing and maintaining applications based on React Js. I am an organized, detail-oriented and hardworking professional, who is always eager to learn new technologies and trends in web development. Furthermore, I have the ability to optimize web applications for better performance and user experience.

WORK EXPERIENCE

June 2022 - Present

Internship - Aurangabad,

PERSONAL PROJECTS

Driving School (Course booking)

<https://frail-seal-earmuffs.cyclic.app/>

I successfully spearheaded the development of a comprehensive course booking application for a driving school. Leveraging my expertise in React.js, Node.js, JavaScript, and HTML/CSS, I designed and built a robust system. seamlessly integrating backend seamlessly integrating backend APIs, I enabled real-time fetching and updating of course information, ensuring accurate availability and a seamless booking process for users. This project not only showcased my technical prowess but also demonstrated my ability to create user-friendly and efficient web applications tailored to specific business needs.

Erios-booking (hotel booking)

<https://defiant-baseball-cap-ox.cyclic.app/>

During my personal projects, I embarked on an exciting venture called Erios (Hotel Booking), which aimed to create a comprehensive hotel rooms booking system. This React JS project presented an opportunity for me to leverage a range of technologies and seamlessly integrate them. In the realm of frontend development, I utilized React JS, while employing Redux for efficient management. Additionally, I delved into the realm of management. Additionally, I delved into the realm of backend development, employing Node JS to build robust functionalities. The culmination of these efforts resulted in a feature-rich hotel booking system accessible through the above link.

Portfolio

<https://portfolio-manoj-dakle.vercel.app/>

This is my portfolio app. I make this app using create-react-app. I design this app using bootstrap framework. This is responsive app. In this app i tried to explained myself in brief. I have added my resume and all information about me. I added my all projects or recent work also.

Introduction To JavaScript

Certificate No : CC-DGVGY3QT
